Engineers

Tommy James Munro, P.E.

Engineer III

Professional Qualifications

Mr. Munro joined MME in 2018 and has over five experience with Public Works Inspection and Contract Administration. He has worked on City, County, and State projects throughout California.

In both the North Coast and Central Coast Regions, Mr. Munro has worked extensively with Caltrans Structures. This experience includes retaining walls, bridge replacement, & bridge maintenance/rehabilitation. Some of the notable projects he has worked on include the Land Slide Repair at Last Chance Grade in Crescent City and The Pfeiffer Canyon Bridge Replacement in Big Sur.

Mr. Munro has also worked with the City of Santa Cruz where he gained Public Works Inspection experience on a wide range of projects including retaining walls, roads, sewer connections, sidewalks/curb/gutter, and ADA curb ramps.

Drawing from his experience in the field Mr. Munro offers inspection services that include verification of plans and specifications; tracking job progress; tracking materials/equipment; tracking labor hours and compliance interviews; and creating daily reports. He also provides contract administration services including submittal review, RFI's, and labor compliance.
