Craig Bagley, Architect  
555 Soquel Ave  
Santa Cruz, CA 95062  
(831) 425-1730

**Budget:** \$4 million

Major maintenance at Cowell College at the University of California, Santa Cruz involved renovations at the Cowell Residence Halls.

MME provided civil and structural design of all site improvements including ADA parking, pathways and ramps, stairways, roadway and parking modifications and replacement of two faculty apartment porches. Additional work included the layout of waste and recycling enclosures designed specifically to fit the site constraints and requirements of the University.

MME also provided construction administrative services including minor design modifications to meet the actual existing conditions.

MME successfully finished the design work in time to allow construction completion before the Fall Semester classes started.
