

University of California Santa Cruz - OPERS Courtyard Santa Cruz, California

Civil Engineering

Client Reference:

Dennis Diego, DDA Architect
500 Chestnut St., Ste. 175
Santa Cruz, CA 95060
(831) 459-7566

Project Cost: \$300,000

This work dramatically improved the beauty and function of the entrance to the swimming pool at the University of California, Santa Cruz. The existing concrete courtyard was replaced with new landscaped areas, new furniture and benches, and ADA accessible colored concrete walkways.

MME provided civil plans for the project, which included retrofitting and repairing existing drainage facilities, providing erosion control during construction, and detailed elevation grading for the accessible path of travel through the courtyard to the adjacent building entrances and pool.

MME also provided construction administration services, including submittal reviews, RFI response, and site observations.
